FAQ

This feature is included in their proprietary software for Windows, Mac, iOS and Android devices and gives you peace of mind that no matter what happens your data is safe all of the time.. VPN Express uses AES-256 encryption when using the L2TP/IPSec protocol, 2048 bit SSL encryption when using OpenVPN and MPPE-128 when using PPTP, which are highly secure encryption methods used in the VPN industry.

Update safari browser for mac VPN Express (not to be confused with) is a very small company which we feel is trying to emulate Express VPN.. VPN Express delivers exactly what every user needs and what other providers occasionally lack: a VPN kill-switch.. Before we move on to the features and other aspects of the VPN service, let's first discuss the setup, Express VPN download process and For now, ExpressVPN offers its Kill Switch feature for systems that are running either Windows or the Mac OS.. A lot of websites and services don't use IPv6 and some ISPs don't yet allow this type of connection.. But for those that do, there is always a risk that IPv6 traffic could leak back to your ISP especially if your VPN doesn't allow you to tunnel IPv6 activity.
